ADit

to your social networking profile.

The global social network where YOU provide the content!

Your profile is Your Space with ADit!

Social networking has become incredibly popular and a must to brand your business, band, products, services and yourself.

YourFINDit is the only social networking community with the ADit application providing members with the ADit function to completely own all their advertising space in their YourFINDit profile.

Define your personal space to express yourself, market your business or introduce your musical group or band. Use your space to network with friends, interact with business contacts, or find new people. Reach out to local businesses or communicate with businesses worldwide. Find jobs or list a job, buy a home or sell a car. You can do it all on YouFINDit.com.

YourFindit's ADit application provides members with the following functions to truly brand and market their profile on each and every page:

- Create and upload your own banners or use ADit's free to use pre-made banners
- Designate the click-through destination URL of your choice.
- Brand and market your business, products and/or services.

Make YourFINDit profile an ADit profile! Keep the visitors on your pages seeing only your brand and linking your ads to the URL of your choice. Don't lose traffic to competitor ads. Send them where you want them to go when they click on an ad. The ADit application gives you the ability to make sure that YOUR profile is truly YOUR space.

YourFINDit is a content-driven social networking community that brings people, musicians and businesses together in one space. YourFINDit combines many of the most widely-used applications on the Internet in one space for members to customize, brand and market their profile.

ADit Profile Benefits

- Unlimited impressions and click-throughs based on traffic to your profile.
- Multiple banners on all your profile pages you upload content to.
- ADit prohibits competitors and/or unwanted ads from running in your YourFINDit profile, effectively giving you control and eliminating advertisements promoting products or services that you don't support.
- Your banners serve to keep visitors on your profile page or drive traffic to the URL you want your visitors to go.
- "Own" your pages. Manage and run your own banners. Choose to run third party ads and make money from the traffic.
- Run ads for your friends, business clients or promote your favorite charity!
- Your uploaded ads will appear on each of your pages within your YourFINDit profile so the more content you have the more exposure your ads will receive.
